About BEYOND RecordSearch

About this Extension

BEYOND RecordSearch is an extension for Microsoft Dynamics 365 Business Central.

It was developed by:

BEYONDIT GmbH

Schauenburgerstraße 116

24118 Kiel

Germany

moin@beyondit.gmbh

[+49 431 3630 3700](tel:+4943136303700)

BEYOND RecordSearch adds a new column to your document lines. In this column (**Search Term**) you can enter a search term to search for items, service items, resources, G/L accounts, assets, remarks, costs and additions/deductions depending on the document.

You receive the search results within a few milliseconds and can double-click on the data record found (for example, an item) to transfer it to the lines. The search results are displayed in a clearly arranged window. To avoid tying up computing capacity for the search unnecessarily, 50 search results are retrieved from your database at a time. If more results are required, you can automatically load more search results by scrolling down.

The latest version of this documentation can be found at the following link: [BEYOND RecordSearch Documentation](#).

NOTE

No dependencies from or to other apps

No dependent applications are required to use BEYOND Indicator, i.e. you do not need to install any additional applications.

Search via Document Line

This section describes how to search in the document lines using the **Search** column.
To search for a record, proceed as follows:

- 1. Under the **Lines** tab, in the **Type** column, select the record type you want to search for.
- 2. Under the **Search Term** column, enter a search term to be used for the search.
