About BEYOND TradeInRecordSearchBridge

About this Extension

BEYOND TradeInRecordSearchBridge is an extension for Microsoft Dynamics 365 Business Central. It was developed by:

BEYONDIT GmbH

Schauenburgerstraße 116
24118 Kiel
Germany
moin@beyondit.gmbh
[+49 431 3630 3700](tel:+4943136303700)

BEYOND TradeInRecordSearchBridge combines the functionalities of BEYOND TradeIn and BEYOND RecordSearch. You can use the search function of Beyon RecordSearch on trade-ins.

You receive the search results within a few milliseconds and can double-click on the record found (for example, an item) to transfer it to the lines. The search results are displayed in a clearly arranged window. To avoid tying up computing capacity for the search, 50 search results are retrieved from your database at a time. If more results are required, you can automatically load more search results by scrolling down.

The latest version of this documentation can be found at the following link: [BEYOND TradeInRecordSearchBridge Documentation](#).

NOTE

Dependencies on or to other apps

Additional, basic applications are required to use BEYOND TradeInRecordSearchBridge. The following applications are required to use BEYOND TradeInRecordSearchBridge:

- **BEYOND TradeIn:** Allows you to take items in payment. The trade-in is similar to a sales claim. In the process, a sales credit memo is created for the business partner.
- **BEYOND RecordSearch:** Extends Business Central with a column in the documents that allows to search for records.
