General Information

This documentation contains important information that you must observe when following the descriptions. The information is highlighted as notes and arranged according to type and importance. The notes are listed below in ascending order of importance:

TIP

This represents **no risk**. In addition to the classic clicking on options, Business Central also offers the option of using so-called shortcuts. Shortcuts are key combinations with which you can also execute the desired action in the user interface. By using shortcuts, you can work faster and more effectively. Try the key combination and you will be surprised how much faster you can work.

NOTE

This represents **no risk**. This note contains important information on the correct use, configuration or operation of the software. Follow these instructions to avoid inefficiencies and unnecessary support tickets. For example, this note can show you that an option is hidden and tells you how to proceed if you want to show it again.

IMPORTANT

This represents a **low risk**. This notice refers to non-critical issues that may lead to undesired behavior or configuration problems. May affect user experience or functionality if not considered.

CAUTION

This represents a **medium risk**. This notice indicates a potential problem that could affect system stability or data integrity. Failure to comply may result in errors, loss of performance or partial service interruptions. The errors caused by non-compliance only affect the app itself and prevent you from working with data within the app.

WARNING

This represents a **high risk**. This notice indicates an immediate and serious risk to the productive system. Failure to observe this warning may affect the entire system. There is a risk of loss of critical data or total system failure, leading to prolonged downtime. It may not be possible to restore the data and a backup must be imported.

Beyond AttributesMGTBridge is an extension for Microsoft Dynamics 365 Business Central.

The **Beyond AttributesMGTBridge** application bridges the gap between **Beyond AttributesCore** and **Beyond ManufacturerGroupType**.

This bridge application allows to use attributes and additional information like manufacturer, group, type on service items.

The latest version of this documentation can be found at the following link: [Beyond AttributesMGTBridge Documentation](#).

NOTE

Dependencies on or to other apps

Additional, basic applications are required to use **Beyond AttributesMGTBridge**. The following applications are required to use **Beyond AttributesMGTBridge**:

- [Beyond AttributesCore](#): Extends Business Central with an area for additional item characteristics (attributes).
- [Beyond ManufacturerGroupType](#): Expands Business Central area with additional information such as manufacturer, group and type.
