General Information

This documentation contains important information that you must observe when following the descriptions. The information is highlighted as notes and arranged according to type and importance. The notes are listed below in ascending order of importance:

TIP

This represents **no risk**. In addition to the classic clicking on options, Business Central also offers the option of using so-called shortcuts. Shortcuts are key combinations with which you can also execute the desired action in the user interface. By using shortcuts, you can work faster and more effectively. Try the key combination and you will be surprised how much faster you can work.

NOTE

This represents **no risk**. This note contains important information on the correct use, configuration or operation of the software. Follow these instructions to avoid inefficiencies and unnecessary support tickets. For example, this note can show you that an option is hidden and tells you how to proceed if you want to show it again.

IMPORTANT

This represents a **low risk**. This notice refers to non-critical issues that may lead to undesired behavior or configuration problems. May affect user experience or functionality if not considered.

CAUTION

This represents a **medium risk**. This notice indicates a potential problem that could affect system stability or data integrity. Failure to comply may result in errors, loss of performance or partial service interruptions. The errors caused by non-compliance only affect the app itself and prevent you from working with data within the app.

WARNING

This represents a **high risk**. This notice indicates an immediate and serious risk to the productive system. Failure to observe this warning may affect the entire system. There is a risk of loss of critical data or total system failure, leading to prolonged downtime. It may not be possible to restore the data and a backup must be imported.

Beyond ReportsPersonInChargeBridge is an extension for Microsoft Dynamics 365 Business Central.

Beyond ReportsPersonInChargeBridge combines the functionalities of Beyond Reports and Beyond PersonInCharge. The person in charge you define on documents can be printed on your custom reports.

The latest version of this documentation can be found at the following link: [Beyond ReportsPersonInChargeBridge Documentation](#).

The examples described in this documentation represent only a part of the possibilities that the **Beyond ReportsPersonInChargeBridge** solution offers you. If you have a specific case that you would like to map via the solution, please feel free to contact us.

NOTE

Dependencies on or to other apps

Additional, basic applications are required to use **Beyond ReportsPersonInChargeBridge**. The following applications are required to use **Beyond ReportsPersonInChargeBridge**:

- [Beyond Reports](#): Adds the ability to customize reports from purchasing, sales and service to your Business Central.
- [Beyond PersonInCharge](#): This app allows you to specify a person in charge who is responsible for the document and the corresponding business partner.
